

## Ultra Seated Leg Curl

G7-S72-AS2007

The Ultra Seated Leg Curl strengthens hamstrings with a design that's intuitive, comfortable and powerful in one. Back pad, tibia pad and range-of-motion adjustments are all easily accessible from the seated position. An angled seat and a unique pivot location encourage full hamstring contraction. The gas-assisted adjustable thigh pad and thumb-switch controls make setup easy, while a contoured thigh pad makes even heavy sets comfortable.

Also available in [Ultra Base option G7-S72B](#).
